# COSHH & Other Cleaning

## COSHH Training

Betapak can attend your site or remotely provide COSHH (Control Of Substances Hazardous to Health) training. This is FREE when purchasing cleaning products from us.

Along with the training session, we are able to offer a FREE COSHH folder. Which will contain all Safety Data Sheets (SDS), suited to your business' purchasing history with Betapak.

# E:dose Evans Range

It **ONLY** costs 11p per bottle to make-up the E:Dose Range.

By using these products your business saves money and the environment.

- **Very environmentally friendly** (use less plastic & reduce waste)
- 1-litre bottle will make 100 trigger spray bottles (or 50 buckets)
- The dosing system stops overuse, as it's capped to 10ml per dose
- 30 second contact time to kill the bacteria

## Bespoke Packaging Available

Bespoke packaging, with your branding, is a great way to stand out from competitors. We have a variety of options available, see the next page for more details or visit our website: [www.betapak.co.uk](http://www.betapak.co.uk)

# Branded Items & Loosefill

Items can be printed with your identifiable logo along with your address and contact details (or whatever you like!) getting your strategic message across.

We can help your business to brand bags, carriers, tape & more. All in a way which saves your business money and the planet.

## NEW: Betapak Loosefill

BIODEGRADABLE LOOSEFILL | MANUFACTURED BY US

Our loosefill is **biodegradable**, **water-soluble** and **100% compostable**. The product acts as an excellent eco-friendly alternative, eliminating plastic and polystyrene from your packaging process. Made completely from corn starch, the loosefill meets EN13432 criteria.

Additionally, it helps reduce your transportation costs due to low weight. However, low density doesn't mean poor protection.

Due to their tried-and-tested product shape, organic packaging peanuts create a cushion that blocks, braces, stabilises, and prevents goods from moving about during transit.

Biodegradable, made completely from starch

100% home and garden compostable

Produced locally, reducing carbon footprint

# Equipment Servicing & Furniture Services

## Engineering

We can help with a range of servicing, PAT testing, repairs, and pressure testing on a wide range of catering equipment and machines. Our team of friendly, fully trained, and insured technicians offers a fantastic service for all types of machinery. With set pricing in place and most replacement parts available from stock or rapid delivery.

### PAT Testing

We offer whole site PAT test visits or just specific items. We will even remind you when your next test is due, so no need to worry about expired items.

## Service, Fix, Repair & Filter Changes

We offer a repair service to a huge number of machines. We can source and order most replacement parts and offer a fast turnaround so that you have your machine back and running in the timeliest fashion.

### Installation of furniture and removal of packaging

Betapak offers an easy and efficient furniture installation and fitting service - perfect for offices, shops, public areas, restaurants, hotels & more. You buy it and we build it! From a one person office to a large complex. Afterward, we will remove all packaging.

## Removal of old furniture

At Betapak we can either help you start afresh, tweak your current business/home site or just look for a final close-down solution.

We are able to take away most office furniture and catering equipment - this then varies from a chargeable service to free of charge, offer a credit on your account or money for items. So, if you have one item or a whole site to clear, talk to Betapak.

# Our Environmental Policy

Betapak will strive to find continuous improvements to minimise its impact on the environment, and ensure sustainability of all aspects of its operations.

---

## Transport

- Encourage customers to source locally to minimise product miles.
- Combine deliveries across all product ranges, reducing number of vans on the road.
- Utilise state of the art software to efficiently plan deliveries and reduce wasted miles.
- Ensure appropriate size of van is used for each delivery to minimise fuel use.
- Regular servicing of vans to minimise emissions.

## Recycling

- All cardboard and polythene material (90% of all waste) will be sorted for recycling.
- Develop new routes to return post-use pallets to ensure re-use.
- Metal waste will be taken to a recycling facility.
- Continue to seek out recycling opportunities for the balance of waste material.

## Minimising Waste

- Encourage recycling as far as possible.
- Ensure protective packaging is minimised by optimising distribution channels.

## Working With Customers

- Offer a choice of environmentally friendly products as alternatives.
- Carry full info to help customers choose suitable low environmental impact products.
- Work closely with customers to help them meet their own environmental policy goals.

## Efficient Use of Water and Energy

- Occupancy sensors on warehouse lighting.
- Solar panels on premises occupied by Betapak.
- Low energy lighting.
- Eco boil coffee machines.
- Efficient water heater heaters.

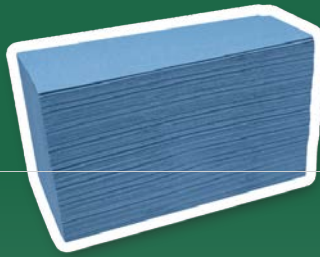

## Use of Chemicals, CFCs and Harmful Substances

No harmful products (chemicals, CFCs, ozone-depleting substances, solvents, paints etc.) will be used where suitable environmentally-friendly alternatives exist.

We can help your business to use more sustainable products, reducing the impact on our environment. Contact us for a discussion: [sales@betapak.co.uk](mailto:sales@betapak.co.uk)
